

## Fun with the pen

With the tablet pen, you can draw, paint, take notes, and even write on your photos.

NOTE: In some regions, the pen may not be included in the box. Contact your service provider or retail store for details on purchasing the pen.

Before you start, first open the battery cap and, with the top end (positive pole) first, insert the supplied battery into the pen.

Tap the tablet pen anywhere on the screen, you are then guided on using the pen.

When done, tap the tablet pen on the  button at the bottom of the screen to see your pen options, open Notes, or take a screenshot of your current screen to scribble on.

You can also use the tablet pen to move around your tablet, such as when you want to slide to another screen, scroll through a web page, or select onscreen items.

To find out more about using the pen with your tablet, see the complete user guide.

## Watch movies on the go

With the HTC Watch™ online video service, get a glimpse of the latest movie trailers and enjoy watching Hollywood blockbusters or TV shows. You can choose to either rent or buy videos, and start watching a video as it's being downloaded.

Tap  > **Watch**, sign up for your HTC Watch account, and browse through the collection of movies and TV shows in the online video store.

Note Initially, you may be able to watch movie trailers only in HTC Watch. Rental and purchasing services will gradually be available worldwide. Please stay tuned.

## Record in HD

Capture those priceless moments in HD and share them with your loved ones.

1. From the Home screen, tap  > **Camcorder**.
2. Tap  > **Video quality**, and then select **Online (HD, 10 minutes)**.  
This makes sure that the file size of the video can be small enough to be shared.
3. Tap  to start recording; tap  again to stop recording.

4. On the review screen, tap . Choose how you want to share the video.

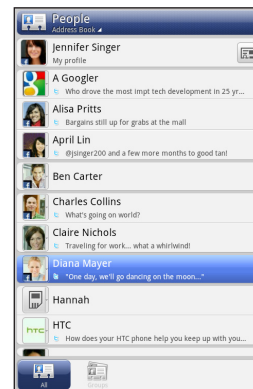

## Keep in contact

In the People app, you'll see your contacts from your Google Account, Facebook®, and even your Exchange ActiveSync® account if you're signed in to these accounts on your tablet.

Aside from their contact details, you'll also see their status updates and birthday reminders if they're your Facebook or Twitter™ friends.

You can also add new contacts:

1. From the Home screen, tap  > **People**.
2. Tap , and then enter the contact information in the relevant fields.
3. When done, tap **Save**.

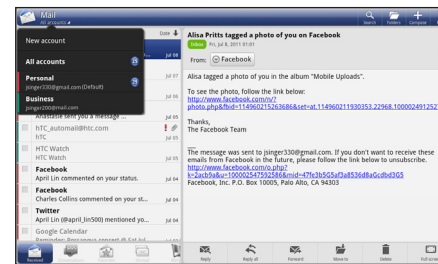

## Email

If you signed into your Google Account when you first set up your tablet, you'll be able to send and receive Gmail messages. From the Home screen, just tap  > **Gmail**.

Use the Mail app to set up and manage your other email accounts such as POP3, IMAP, or Exchange ActiveSync.

1. From the Home screen, tap  > **Mail**.
2. On the Choose a mail provider screen, choose the type of email account to set up.  
If you don't see this screen, tap  > **New account**, and then choose the type of email account.
3. Follow the onscreen instructions to set up your email account.

You can then check your email messages just in one place without having to switch to different accounts. Just choose the **All accounts** inbox.

Email messages are color coded so you can easily distinguish which email accounts they belong to.

## Get HTC Sync

You can use the HTC Sync software to sync contacts, calendar, and other information between your computer and your tablet.

Go to our support website ([www.htc.com/support](http://www.htc.com/support)) to download HTC Sync and install it on your computer.

## Battery saving tips

### Setting power saver

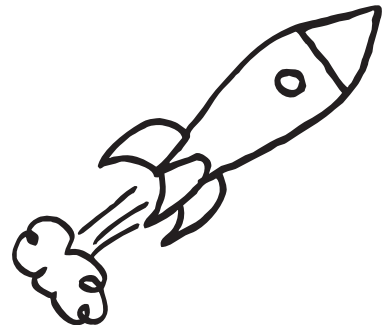

Set your tablet to automatically switch to power saver mode when the battery level reaches a certain level.

1. From the Home screen, tap  > **Settings**.
2. Tap **Power**, and make sure the **Enable power saver** check box is selected.
3. Tap **Turn power saver on at** and **Power saver settings** to set power saver options.

### Turning off wireless functions

Tap the rightmost area of the status bar to open the Notifications panel. Then tap  > **Airplane mode** to turn off wireless functions such as Bluetooth and Wi-Fi when they're not in use.

## Your HTC Jetstream Quick guide

For the complete user guide and other helpful resources, go to [www.htc.com/support](http://www.htc.com/support). Please also read the Safety and regulatory guide that's included in the box.

## Before you do anything else, please read this

### Charge the tablet

Your tablet hasn't been charged yet. Please use the supplied power adapter to do a full charge before using it. Also, please don't try to take your tablet apart. (If you do, it may invalidate your warranty.)

### Choose a rate plan wisely

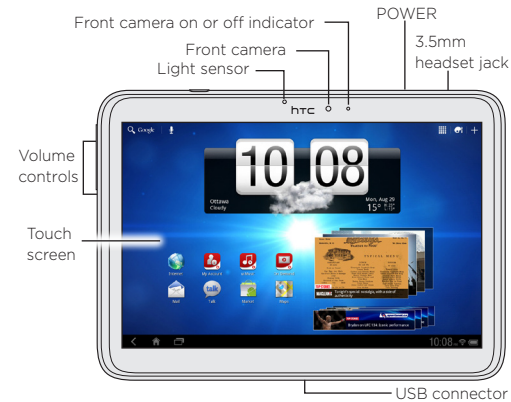

Depending on how you use your tablet, it can use up a lot of Internet bandwidth really quickly. Before you use your tablet, we strongly recommend that you talk to your mobile operator about data rates.

Using data services while roaming will be costly. Check with your mobile operator for data roaming rates before you use data roaming.

### And finally, a few important words from our legal team (LIMITATION OF DAMAGES)

To the maximum extent permitted by applicable law, in no event shall HTC or its affiliates be liable to you, any user, or third party for any indirect, special, consequential, incidental or punitive damages of any kind, arising in contract, tort, or otherwise, including, but not limited to, injury, loss of revenue, loss of goodwill, loss of business opportunity, loss of data, and/or loss of profits, regardless of the foreseeability thereof or whether HTC or its affiliates have been advised of the possibility of such damages. And in no event shall the total liability of HTC or its affiliates exceed the amount received from you, regardless of the legal theory under which the cause of action is brought. The foregoing does not affect any statutory rights which may not be disclaimed.

## Get to know your tablet

## Before you turn on your HTC Jetstream

Make sure you prepare your tablet correctly before you press the POWER button.

### Inserting your SIM card

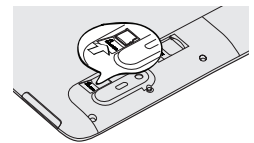

1. Starting from the small opening along the top panel, lift the top cover and remove it completely.
2. Insert the SIM card into the SIM card slot with its gold contacts facing down and cut-off corner facing out.

### Inserting a microSD card

Your tablet already has tablet storage for saving data and files. But if you want even more storage space, you can purchase and use a microSD card with your tablet.

Insert your microSD card into the storage card slot with its gold contacts facing down, and push it in until it clicks into place.

### Replacing the top cover

1. With your tablet facing down, insert the small tabs of the top cover into the exposed side of your tablet.
2. Press the top cover down to lock it in place.

### Charging the battery

Your tablet has a built-in (non-removable) rechargeable battery. Connect the supplied power adapter to charge your tablet. To check the battery charging status, look at the notification LED on the POWER button.

## Set up your tablet

The first time you turn on your tablet, you'll be guided to set up your email and social network accounts, transfer contacts using Bluetooth, and more. Be sure to sign in to your Google™ Account so you can use Google apps such as Gmail™ and Android Market™ on your tablet.

## Your Home screen

Almost anything you want is only a swipe and a tap away on your Home screen. Smoothly roll around the screens to see your favorite apps or widgets that show live updates of social network feeds, weather forecasts, email, and more.

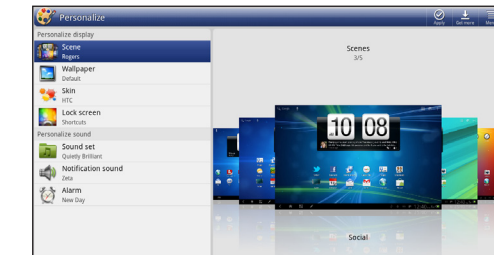

## Personalize your tablet

Customize your tablet just the way you want it. You can:

- Change the wallpaper, skin, widgets, apps, or shortcuts.
- Choose a sound set that uses different sounds for your ringtone and for notifications such as incoming messages and calendar reminders.
- Personalize the lock screen. Choose from a selection of active lock screens that show live information such as animated weather and stock updates. You can also choose what apps you want for your lock screen so you can unlock the screen straight into your favorite app.

From the Home screen, just tap the personalize button  and choose what you want to customize.

### Adding widgets

1. From the Home screen, tap  > **Widgets**.
2. Customize your tablet just the way you want it.
3. Slide from right to left to view the different styles. You can also tap **All Widgets** to choose a category from the dropdown list.
4. Drag an item to a home screen thumbnail where you want to add a new widget.

## Lock screen

When your tablet becomes idle, it turns the display off and goes to sleep mode to save battery power. Simply press POWER to turn the display back on. To unlock the screen, pull the ring up.

You can also drag an icon down to the ring to unlock the screen and directly go to that app.

## Connect to the Internet

Get online using your tablet's data connection or Wi-Fi.

### Using a data connection

It's simple. When you turn your tablet on for the first time (with the SIM card inserted), it should connect automatically to your mobile operator's data service.

If presented with a list of mobile operators to choose from, make sure that you select the correct one for your SIM card, if you're not sure, contact your service provider.

### Using Wi-Fi

1. From the Home screen, tap  > **Settings**.
2. Tap **Wireless & networks**.
3. Select the Wi-Fi check box to turn Wi-Fi on.
4. Tap **Wi-Fi settings**, and then choose a Wi-Fi network to connect to.

## Fast browsing

Enjoy fast web browsing on your tablet. With the powerful processor, you can be sure that viewing web pages will be smooth. Also, with Adobe® Flash® and HTML5 support, no websites are out-of-bounds.

From the Home screen, tap  > **Internet** to open the web browser.

While viewing a web page, you can tap any of the following:

-  Enter a search item or web address.
-  View your bookmarks, history and most-visited sites list.
-  Create a bookmark.
-  Show all open browser windows.
-  See more browser options.
