Sign, date and return the proxy card in the envelope provided or fax the proxy card as described above. You may also appoint a second person to be your alternate proxyholder. Neither your proxyholder nor alternate proxyholder need be a shareholder. The person you appoint must attend the meeting and vote on your behalf in order for your votes to be counted. Proxyholders should register with representatives of Computershare when they arrive at the meeting.**

Please remember that your proxy or voting instructions must be received by no later than 4:30 p.m. (local time in Vancouver) (7:30 p.m. local time in Toronto) on May 24, 2007.

Your Voting Choices

You may instruct the proxyholder how you want to vote by marking the appropriate box or boxes on the proxy card. The proxyholder must vote (or withhold from voting) your Class A Shares as you instruct, on any vote on a poll, and, if you specify a choice with respect to any matter to be acted upon, your Class A Shares will be voted accordingly. If you do not mark a box, your proxyholder may decide how to vote your Class A Shares.

If the management representatives named in the proxy card are your proxyholders, they will vote your Class A Shares as follows, unless you have marked the boxes with different choices:

HOW VOTES ARE COUNTED

Class A Shares

Each Class A Share is entitled to 50 votes on a poll.

RESTRICTIONS ON THE TRANSFER, VOTING, OWNERSHIP AND ISSUE OF SHARES

We have ownership interests in several Canadian entities licenced or authorized to operate under applicable communications laws (the **Laws**) including the:

- *Broadcasting Act* (Canada)
- *Telecommunications Act* (Canada)
- *Radiocommunication Act* (Canada)

The Laws have foreign ownership limits (the **Limits**) for various classes of licensed or authorized entities. You can obtain a copy of the Limits from our Secretary.

The Laws also impose a number of restrictions on changes in effective control of licencees or authorized entities, and the transfer of licences held by them. Our Articles therefore impose restrictions on the issue and transfer of our shares and the exercise of voting rights to ensure that we and any Canadian corporation in which we have any interest are:

- qualified to hold or obtain any cable television, broadcasting or telecommunications licence or authorized to operate a similar entity under the Laws; and
- not in breach of the Laws or any licences issued to us or to any of our Canadian subsidiaries, associates or affiliates under the Laws.

If our Board of Directors (the **Board**) considers that our or our subsidiaries' ability to hold and obtain licences, or to remain in compliance with the Laws, may be in jeopardy, the Board may invoke the restrictions in our Articles on transfer, voting and issue of our shares.

OUTSTANDING SHARES AND MAIN SHAREHOLDERS

On April 13, 2007, 112,467,614 Class A Shares were outstanding. Edward S. Rogers, O.C., our President and Chief Executive Officer (**Ted Rogers**) beneficially owned or controlled 102,232,198 Class A Shares, being about 90.9% of our outstanding Class A Shares.

RESTRICTED SHARE DISCLOSURE

Holders of Class B Non-Voting Shares are entitled to receive notice of and to attend meetings of our shareholders, but, except as required by law or as stipulated by stock exchanges, are not entitled to vote at such meetings. If an offer is made to purchase outstanding Class A Shares, there is no requirement under applicable law or the Corporation's constating documents that an offer be made for the outstanding Class B Non-Voting Shares and there is no other protection available to holders of Class B Non-Voting Shares under the Corporation's constating documents. If an offer is made to purchase both Class A Shares and Class B Non-Voting Shares, the offer for the Class A Shares may be made on different terms than the offer to the holders of Class B Non-Voting Shares.

Further information as to our capital structure is contained in the consolidated financial statements for the year ended December 31, 2006, Note 20.

AMENDMENTS TO EQUITY COMPENSATION PLANS

The Toronto Stock Exchange (“TSX”) recently advised that, effective June 30, 2007, TSX issuers with “general amendment” provisions in their stock option and other security based compensation plans will no longer be able to make amendments to those plans and outstanding awards under the plans, including amendments considered to be of a “housekeeping” nature, without shareholder approval. Each of the Corporation’s 1994 Stock Option Plan, 1996 Stock Option Plan, 2000 Stock Option Plan and 2003 Restricted Share Unit Plan (collectively, the “Plans”) contain a “general amendment” provision. The TSX has advised issuers to seek shareholder approval of detailed amending provisions to security based compensation plans to clarify when shareholder approval for amendments to such plans and outstanding awards will not be required.

The Board has approved the amendments to each of the Plans as described below, with such amendments to be subject to the approval of the shareholders. The TSX has approved the amendments to the Plans, subject to the approval of shareholders.

The proposed amendments to the Plans provide that the Board has the power to make all amendments to the Plans and outstanding awards thereunder without the approval of the shareholders of the Corporation, other than certain amendments which will require shareholder approval. The amendments which could be made by the Board include changes to the provisions dealing with the vesting or exercise of awards under the Plans, changes to the administrative provisions and changes to clarify or correct ambiguous provisions. The shareholders will be required to approve any amendment to the Plans or any outstanding award thereunder which:

- (i) reduces the exercise price of an award held by an insider;
- (ii) extends the term of an award held by an insider; or
- (iii) increases the number of shares reserved under a Plan.

The other proposed amendments are to the Corporation’s 1994 Stock Option Plan, 1996 Stock Option Plan and 2000 Stock Option Plan to extend the term of an option to ten business days following the end of the blackout period, where the expiry date of such option would otherwise fall during or immediately after a “blackout period”. Under the Corporation’s insider trading policies, specified employees are restricted from trading in securities of the Corporation during periodic blackout periods imposed by the Corporation. A recent notice of the TSX recognizes that blackout periods imposed by issuers are an example of good corporate governance practice and that issuers, their insiders and

employees should not be penalized for maintaining such practices. The proposed amendments to these Plans address the situation where an award that would otherwise expire during or immediately following a blackout period imposed by the Corporation by providing that the award will continue to be exercisable until the tenth business day following the expiry of the blackout period.

A copy of each of the Plans reflecting these amendments may be obtained by contacting our Investor Relations Department at Rogers Communications Inc., 333 Bloor Street East, Toronto, Ontario M4W 1G9. Copies of the Plans, as amended, will also be available at the meeting.

The resolution to approve the amendments to the Plans which will be presented at the meeting and, if deemed appropriate, approved with or without variation is as follows:

“1. EMPLOYMENT CONTRACTS

We have written employment contracts with 5 of our Named Executive Officers. The contracts include the compensation and pension terms set out above.

Under his employment contract, Mr. Ted Rogers will be our Chief Executive Officer for an indefinite duration but the contract can be terminated by Mr. Ted Rogers or by RCI on six months notice. The contract sets out procedures for setting annual salary and bonus (see Summary Compensation Table and the Report of the Compensation Committee for the 2006 amounts). It also provides him with the right to various benefits that we make available generally to our senior executives. On his death, we will pay to his spouse in equal monthly instalments for her lifetime an annual amount equal to one-half of his average annual salary for the 3 year period ending on his employment termination date. Mr. Ted Rogers has agreed not to compete, for 5 years after the termination date, with our and our subsidiaries' respective businesses.

Our employment contracts with Messrs. Linton, Mohamed, Edward Rogers and Viner continue to their respective 65th birthdays. Each contract sets out procedures for setting annual salary and bonus (see Summary Compensation Table and the Report of the Compensation Committee). The contracts also provide the executives with the right to various benefits that we make available generally to our senior executives.

Under our employment contract with Mr. Linton, if we terminate Mr. Linton' employment, other than for cause, we will provide him with monthly payments equal to his salary in lieu of notice, from the date of termination of employment until the earliest to occur of: (i) the date which is twelve months plus one month for each full of year of employment; (ii) his 65th birthday; or (iii) the date upon which he secures alternative employment, up to a maximum of twenty-four months. In addition, Mr. Linton will be entitled to a bonus amount, in accordance with established criteria, for this period. During the applicable period, Mr. Linton may continue to participate in our pension and benefit plans (except any disability plans). Mr. Linton has agreed that he will not, during the term of his employment with us and thereafter for a period of twelve months, compete directly or indirectly with us or our subsidiaries.

Under our employment contract with Mr. Mohamed, if we terminate Mr. Mohamed's employment, other than for cause, we will pay him a sum equal to 24 months base salary and bonus and permit him to continue in our pension and benefit plans (except any disability plans) for 24 months or until he turns 65, should that occur before the end of the 24 month period. Our stock options that would have become exercisable within 24 months become immediately exercisable. He may exercise those options, and all options already exercisable, for the balance of their respective terms, ranging from 7 to 10 years from their grant dates. If there is a change of control of us or Rogers Wireless Communications Inc., Mr. Mohamed may resign and be entitled to the termination results outlined above. Unless he is terminated without cause, Mr. Mohamed has agreed, among other things, not to compete for twelve months after his termination with any wireless communications business carried on by Rogers Wireless Communications Inc. and its subsidiaries at the termination date.

Under our employment contract with Edward Rogers, if we terminate Mr. Rogers' employment, other than for cause, we will provide him with monthly payments equal to his salary in lieu of notice, from the date of termination of employment until the earliest to occur of: (i) the date which is six months plus one month for each full of year of employment; (ii) his 65th birthday; or (iii) the date upon which he secures alternative employment, up to a maximum of twenty-four months. During the applicable period, Edward Rogers may continue to participate in our pension and benefit plans (except any disability plans). In addition, all options to acquire our shares that would have, in accordance with the terms of the grants of such options, vested and become exercisable by Mr. Rogers during the period set out above, will immediately vest and become exercisable upon the effective date of termination of employment. Mr. Rogers has agreed that he will not, during the term of his employment with us and thereafter for a period of twelve months, compete directly or indirectly with us or our subsidiaries.

Under our employment contract with Mr. Viner, if we terminate Mr. Viner's employment, other than for cause, we will give him notice (or equivalent payment) equal to the lesser of three years and the number of months between the termination date and his 65th birthday. Mr. Viner has agreed, among other things, not to compete for eighteen months after his termination with any broadcasting or programming business competitive with the business of our subsidiary Rogers Broadcasting Ltd. (RBL) and corporations within its group carried on at the termination date. RBL awarded Mr. Viner 20 participating units (the RBL Units) in a long term incentive phantom option plan, all of which units had vested by the end of 2006. Mr. Viner may under that plan elect to receive for each vested unit a cash payment equal to a certain percentage of the increase in the capitalized value of RBL and its subsidiaries. That increase is measured at the

fiscal year end of RBL before his election against the value at December 31, 1996. The plan has now matured. See footnote 12 to the Summary Compensation Table.

COMPOSITION OF THE COMPENSATION COMMITTEE

The Compensation Committee consists of 5 non-management directors. The members of the Compensation Committee in 2006 were: Thomas I. Hull (Chairman), Ronald D. Besse, H. Garfield Emerson, Q.C., Peter C. Godsoe, O.C., William T. Schleyer, John A. Tory, Q.C. Mr. Emerson served on the Compensation Committee until his retirement from the board on March 21, 2006.

REPORT ON EXECUTIVE COMPENSATION

Compensation Philosophy

The Corporation fosters a true “pay for performance” culture by placing significant emphasis on variable pay for its executives. Our compensation programs are designed to recognize outstanding individual performance in the context of overall corporate success. This emphasizes the importance of balancing and rewarding individual and team performance.

Pay Benchmarking

The Corporation routinely assesses the market competitiveness of its executive compensation through data acquired from an independent compensation consulting firm. Our compensation levels are compared to those in Canadian companies operating in each of the following sectors:

- telecommunications
- publishing
- broadcasting
- cable

We do not position our compensation levels at a specific level in relation to the market. Rather, we position by individual to recognize the individual’s skills set, experience, contribution and retention risk. This approach is driven by the intense level of competition in all markets in which the Corporation operates, and the importance and mobility of executive talent.

Base Salary

Base salary is decided by considering comparable positions in relevant companies and by assessing an executive’s sustained performance. Base salaries are reviewed annually and adjusted if required.

Annual Incentives

Our executive officers are eligible for annual cash bonuses based on achieving specified performance levels (the **Annual Incentive Plan**). At the start of each year, a percentage of an executive’s base salary is set as a target award based on specific financial and strategic goals. Actual awards are based on an executive’s performance measured against the goals, and range from zero to a multiple of the target awards.

For such senior executives (including Named Executive Officers) the Committee will approve:

- performance criteria (**metrics**)
- weighting of these metrics
- the threshold, target and stretch levels of performance
- the corresponding target awards

The Named Executive Officers' annual incentive awards were based on the following metrics and weights in 2006. Mr. Horn's award was in respect of the period he served as Vice President, Finance and Chief Financial Officer and pro-rated accordingly:

	Metrics	Weighting ⁽¹⁾
Ted Rogers	<i>(against budget)</i>	28%
W.W. Linton		
A.D. Horn	<ul style="list-style-type: none"> • EBITDA (earnings before interest, taxes, depreciation and amortization) • Operational performance including <ul style="list-style-type: none"> • Net subscriber additions, • Subscriber churn • Network revenue growth and • Customer satisfaction • Personal objectives 	57%
N.H. Mohamed		
Edward Rogers		
A.P. Viner	<ul style="list-style-type: none"> • EBITDA of Rogers Broadcasting Limited <i>(actual)</i>	100%

(1) The weighting of these metrics varies by metric and by individual.

In 2006, the target annual incentive as a percentage of base salary, for each Named Executive Officer, was as follows:

	<u>Bonus</u> (% of salary)
Ted Rogers	150%
W.W. Linton	75%
A.D. Horn	60%
N.H. Mohamed	125%
Edward Rogers	60%
A.P. Viner	N/A ^(a)

(a) as noted in the table of metrics and weightings, Mr. Viner's annual incentive is directly linked to the EBITDA of Rogers Broadcasting Limited, thus there is no target percentage of base salary.

Annual incentive awards for the Named Executive Officers in 2006 were consistent with the terms of the incentive plan approved by the Committee at the start of the year. Actual awards exceeded target awards due to strong individual and corporate performance.

Long Term Incentives

The most senior of our executives receive a substantial portion of their compensation opportunities in the form of long term incentives. This is consistent with market practices and our philosophy of variable compensation. We believe that equity based long term incentives create an enhanced alignment of an executive's interests with your interests as shareholders.

The Corporation has maintained a stock option plan for key employees and officers for a number of years (See Summary of the Stock Option Plans below). The Committee approves a schedule that links the value of shares under a stock option grant to an individual's base salary. This determines the size of individual stock option grants.

The Committee may, in cases of a new hire, promotion or exemplary individual performance during the year, approve an award in excess of that calculated according to the approved guidelines. The CEO has the authority to make grants within guidelines authorized by the Committee.

The Corporation's long term incentive plan includes the use of stock options for those executives with base salaries in excess of \$150,000 per year who are deemed to have the greatest ability to create sustained value for the shareholders.

Key provisions of the long term incentive plan include:

- awards will be granted annually subject to Committee approval;
- awards are established in a range from base to maximum within defined salary bands;
- awards are based on a multiple of salary;
- eligible executives may make the following choices for their award grant:
 - (i) 100% in stock options;
 - (ii) 100% Restricted Share Units (**RSUs**) (See summary of RSU Plan below); or
 - (iii) 50% in stock options and 50% in RSUs,and (iii) applies if no choice is made;
- the value of an RSU is considered to be equal to 2.5 stock options;
- the exercise price of stock options is the market price of the shares when the option is granted;
- stock options granted have a term of seven years and vest at the rate of 25% starting on the first anniversary of the grant date; and
- RSUs have a three year term and vest 100% at the end of the term.

Senior Executive Incentive and Ownership Program

In February 2006, the Compensation Committee approved a Senior Executive Incentive and Ownership Program. The key provisions of this program include:

- participation is limited to the CEO and executives reporting directly to him or her, the COO and executives reporting directly to him or her, senior operations and marketing business unit leaders, but excluding executives of the Corporation's media subsidiary;
- participating executives will be subject to minimum ownership requirements of the Corporation's shares equal to a targeted multiple of base salary;
- annual incentive awards will be deferred in excess of 100% of the target amount when required ownership levels are not maintained by the executive; and
- a competitive long term incentive award in the form of performance based stock options will be made that vest based on time and share appreciation targets, known as double trigger performance contingent options.

Features of the program are further described below.

(a) Annual Incentive

The Annual Incentive Plan will continue as described above with the bonus award based on the results achieved relative to annual budget targets. To the extent an executive has not satisfied the ownership requirements (see "Share Ownership Requirements") the executive is required to defer any incentive earned in excess of 100% of target in the form of RSUs vesting as at the end of a three year period.

In addition, the executive may defer all or any portion of the bonus in the form of an RSU or DSU (deferred share unit which are redeemed on termination of employment pursuant to the Corporation's Deferred Share Unit Plan). Any election of a deferral must be made by December 31 of the year in which it is earned. If the employment of the executive is terminated prior to the vesting of any amount of bonus that is deferred as a RSU, such RSUs shall vest effective immediately prior to the executive's termination date.

(b) Long Term Incentive Plan

The executives will participate in a performance contingent long term incentive plan. Executives participating in this program will no longer have the choice of a stock option or RSU. All options granted under this long term incentive plan will vest over four years (or later) provided both the time and performance criteria are met during the option term.

- Options have a seven-year term. Prior to 2005, options were generally granted with a ten-year term.

- All options granted will vest based on time (25%/year) provided established stock price targets are met at the relevant annual vesting dates or at any time thereafter during the term of the Option.
- Stock price performance targets will be based on the five-day weighted average share price prior to grant date plus a specified annual increase, compounded annually for each of the four years following the date of the grant.
- The actual performance is measured based on the twenty-day weighted average share price on the Toronto Stock Exchange prior to each anniversary date.

(c) *Share Ownership Requirements*

Our stock ownership guidelines are designed to increase executives' equity stake in Rogers and to align their interests more closely with those of our shareholders. The current guidelines are as follows:

	<u>Multiple of Base Salary</u>
Chief Executive Officer	5.0
Chief Operating Officer	4.0
Chief Financial Officer & Business Unit Presidents	3.0
Other Senior Executives	2.0

These guidelines must be achieved within a five-year period. Shares counted towards these guidelines include:

- any shares held by the executive directly or through a broker;
- RSUs (including RSUs deferred in the Annual Incentive Plan); and
- vested but unexercised stock options (the net in-the-money value of vested options).

The Compensation Committee will annually review the individual executive ownership positions.

Benefits and Perquisites

Executives at the Vice President level and above are eligible for enhanced life insurance and long term disability benefits in addition to other employee benefits generally. Depending on an executive's role, the executive may be eligible for a company automobile or automobile allowance, and membership fees to a business or recreation club.

Chief Executive Officer's Compensation

The Compensation Committee reviews the Chief Executive Officer's performance each year and makes recommendations to the Board with respect to his Base Salary, awards under the Annual Incentive Plan, and awards under the Long Term Incentive Plans. The Committee's recommendations to the Board reflect several factors including the Committee's assessment of the CEO's performance during the year, the Corporation's financial and operating performance for the year against target levels of performance set by the Board at the beginning of the year, and finally the Committee's overall assessment of the Corporation's performance during the year relative to selected competitors in the Canadian telecommunications industry.

As noted in the general discussion of executive compensation, the Chief Executive Officer's annual incentive is based on a series of quantitative and qualitative metrics.

Financial Performance Summary — 2006

Based on our performance against the budget metrics on the business results component of the annual incentive, Mr. Ted Rogers earned an amount equal to 200% of the 85% weighting due to over performance in the key metrics, in particular EBITDA and subscriber growth.

Non-Financial Performance Summary — 2006

The Committee awarded Mr. Ted Rogers 100% of the Personal Objectives component of the annual incentive for 2006 reflecting his leadership during our highly successful year.

Accordingly, the Compensation Committee awarded Mr. Ted Rogers an annual incentive award of \$4,162,500 (equal to 280% of his base salary). The Committee approved the grant of 314,500 performance contingent options in 2006 at an exercise price of \$22.61 per Class B Non-Voting Share, subject to the terms of the Senior Executive Incentive and Ownership Program described above.

* Effective July 1, 2006 the Board approved certain increases to meeting fees and the Audit Committee Chairman's retainer. The Board also approved a retainer for the lead director.

- (1) As directors employed by us, Ms. Rogers and Messrs Lind, Mohamed, Ted Rogers and Edward Rogers do not receive an annual board retainer or meeting fees.
- (2) Mr. Horn was appointed to the Board effective March 21, 2006.
- (3) Mr. Clappison was appointed to the Board effective June 13, 2006.

Starting in 2005, directors no longer receive a retainer for serving as a director on the board of the Corporation's operating subsidiaries. Mr. H. Garfield Emerson retired as Chairman and a director effective March 21, 2006. Mr. Emerson's compensation entitlement was an annual retainer of \$300,000.

As our Chairman, Mr. Horn is paid an annual retainer of \$250,000 in lieu of all other retainers and attendance fees. Mr. Horn also continues to receive life and insurance benefits, a car allowance, and a health club membership reimbursed by us. Mr. Horn has a supplemental retirement plan that provides for a pension based on 2% of his average compensation multiplied by his years of pensionable service.

Directors' Deferred Share Unit Plan

We introduced the directors' DSU Plan effective January 1, 2000 to encourage directors to align their interests with shareholders. Non-employee directors may choose to receive any or all of their fees in DSUs. Each DSU is a book entry having a value equal to the market value of a Class B Non-Voting Share at the start of the relevant fiscal quarter. A director's DSUs may be converted to cash only when the director ceases to be our or our subsidiaries' director. The value of a converted DSU will be equal to the market value of the Class B Non-Voting Share at the conversion time. DSUs accrue dividends in the form of additional DSUs at the same rates as dividends on those Class B Non-Voting Shares. Prior to July 1, 2006, directors were entitled to a retirement allowance after 10 years of service. Effective July 1, 2006, the entitlement to such a retirement allowance was eliminated. Amounts accrued to that date were crystallized and paid in the form of DSUs. Also, prior to 2006 directors were entitled to receive stock options. Effective July 1, 2006, directors will no longer receive stock options. In 2006, in lieu of receiving stock options, the directors received a grant of 2,000 DSUs, other than the lead director and the Chairman, who received 3,000 and 4,000 DSUs respectively.

Share Ownership Guidelines

Each non-employee director is required to own four times his or her annual cash retainer in any combination of Class A Shares, Class B Non-Voting Shares (including vested but unexercised vested stock options (the net in-the-money value of options)) and DSUs during his or her term of service as director of the Corporation. Directors have five years to attain desired ownership levels. This approach aligns the directors to the executive ownership program.

The aggregate number of Class B Non-Voting Shares issued to date under the Stock Options Plans and the RSU Plan is 38,743,081. The aggregate number of Class B Non-Voting Shares remaining available for future issuance under the Stock Options Plans and the RSU Plan is 9,081,184.

All equity based plans restrict the participation of insiders in the plans as follows:

- the number of Class B Non-Voting Shares reserved for issuance to any one person pursuant to awards granted under the Stock Option Plans, the RSU Plan and any other unit or stock option plan person shall not at any time exceed 5% of the aggregate number of outstanding Class A Shares and Class B Non-Voting Shares;
- the number of Class B Non-Voting Shares reserved for issuance to insiders and their associates pursuant to awards granted under the Stock Option Plans, the RSU Plan and any other unit or stock option plan shall not exceed 10% of outstanding Class A Shares and Class B Non-Voting Shares;
- the number of Class B Non-Voting Shares issued under the Stock Option Plans, the RSU Plan and any other of our share compensation arrangements to any one insider or that insider's associates in a 12 month period shall not exceed 5% of the outstanding Class A Shares and Class B Non-Voting Shares; and
- the number of Class B Non-Voting Shares issued under the Stock Option Plans, the RSU Plan and any other of our share compensation arrangements to insiders and their associates in a 12 month period shall not exceed 10% of the outstanding Class A Shares and Class B Non-Voting Shares.

The Compensation Committee has the authority to waive or vary the provisions regarding exercise of options or RSUs following termination of employment or ceasing to be a director, as applicable.

Summary of the Stock Option Plans

Eligible Participants

Our and our affiliates' regular full time employees and officers (the **Participants**) are eligible for a grant of stock options under our 1994, 1996 and 2000 stock option plans (the **Stock Option Plans**). All grants require the approval of and are at the discretion of the Compensation Committee. The CEO has the authority to award option grants within guidelines approved by the Compensation Committee.

Determination of Stock Options to be Granted

The Committee determines the portion of the Participants' compensation to be paid as part of the Corporation's long term incentive plan. The Participant elects whether to receive the long term incentive plan benefit awarded to him or her in the form of stock options, as RSUs (see below), or 50% as to stock options and 50% as to RSUs provided they are not participants in the Senior Executive Incentive and Ownership Program. To the extent he or she elects to receive such benefits in the form of stock options,

- the dollar amount to be credited as stock options

is divided by

- the market price per Class B Non-Voting Share as of the grant date

and the resulting number of stock options is awarded to the Participant.

The market price of the Class B Non-Voting Shares for calculating stock options, and the exercise price, is the weighted average trading price of the Class B Non-Voting Shares on the Toronto Stock Exchange for the 5 trading days before the relevant date.

Vesting and Exercise of Stock Options upon Retirement or Termination of Employment

The stock options typically vest 25% per year and expire in periods ranging from 7 to 10 years. The Committee may establish a different vesting period.

The following rules apply if a Participant's employment is terminated before expiry or if a person who is a director ceases to be a director before expiry:

- if terminated by death, disability, or retirement at retirement age as determined by the committee, the employee Participant's stock options would continue to vest and all vested options would be exercisable until the original expiry date in accordance with the original terms of the grant of such options (unless the Committee otherwise specifically determines).
- if terminated for any other reason other than cause, the employee Participant's unvested stock options are forfeited (unless the Committee otherwise expressly determines in writing) and vested options may be exercised at any time within 30 days after termination.
- if the Participant is a director and ceases to be a director for any reason, the options would continue to vest and all vested options would be exercisable until the original expiry date in accordance with the original terms of such options (unless the Committee otherwise expressly determines in writing).

As a result of a two for one subdivision of the Class A Shares and the Class B Non-Voting Shares approved by holders of Class A Shares, the number of Class B Non-Voting Shares reserved for issuance under the Stock Option Plans was increased from 32,250,000 to 64,500,000.

Assignment of Options

Options are personal to the optionee and are non-assignable, with the exception of the assignment to a legal personal representative of the estate of the optionee, to a personal holding company controlled by the optionee or to a registered retirement savings plan established by the optionee, subject to any applicable regulatory approval.

Summary of the Restricted Share Unit (RSU) Plan

Eligible Participants

Our and our affiliates' regular full time employees and officers (the Participants) are eligible for a grant of RSUs under our Restricted Share Unit Plan (the RSU Plan). All grants require the approval of and are at the discretion of the Committee.

Determination of RSUs to be Granted

The Committee determines the portion of the Participants' compensation to be paid as part of the Corporation's long term incentive plan. Under current policies of the Committees, the Participant may elect to receive the long term incentive plan benefit awarded to him or her in the form of stock options, as RSUs, or 50% as to stock options and 50% as to RSUs. To the extent he or she elects to receive such benefits in the form of RSUs,

- the dollar amount to be credited as RSUs

is divided by

- the market price per Class B Non-Voting Share as of the grant date which

is divided by

- 2.5

and the resulting number of RSUs is credited to the Participant's RSU account. Dividends paid on the Class B Non-Voting Shares are credited as additional RSUs (by dividing the dollar amount of dividends payable by the market price per Class B Non-Voting Share on the date credited).

The market price of the Class B Non-Voting Shares for calculating RSUs granted and credited as dividends, and the redemption price, is the weighted average trading price of the Class B Non-Voting Shares on the Toronto Stock Exchange for the 5 trading days before the relevant date.

Vesting of RSUs and Termination of Employment

The Committee sets a date not later than 3 years after the grant date as the vesting date for a Participant's RSUs. The Committee may also award RSUs subject to conditions, including performance conditions to vesting. To date, the Committee has not awarded RSUs subject to performance conditions to vesting.

The following rules apply if a Participant's employment is terminated before the vesting date:

- if terminated by death, retirement or disability, the Participant's RSUs vest immediately before the death, retirement or disability date
- if terminated for any other reason, the Participant's unvested RSUs are forfeited (unless the Committee otherwise expressly determines in writing)
- notwithstanding the above, any bonus amounts deferred as an RSU will vest immediately prior to a Participant's termination date

Redemption of RSUs

Our redemption rights and obligations are as follows:

- we may redeem before the vesting date
- we must redeem as of the vesting date

all of a Participant's vested RSUs. To redeem RSUs, we or the Compensation Committee may choose to

(1) issue one Class B Non-Voting Share for each RSU; or

(2) pay cash equal to

— the number of RSUs credited

multiplied by

— the market price per Class B Non-Voting Share; or

(3) use a combination of (1) and (2).

- If the employee is an eligible person (as defined in the RSU Plan), the employee may elect to receive his or her bonus in the form of RSUs. The election must be made before the end of the year in respect of which the bonus is earned.

We may not issue Class B Non-Voting Shares unless we obtain the approval of the Toronto Stock Exchange and any other regulatory authority (as may be required) and, if and as required by the Toronto Stock Exchange, our shareholders.

As a result of a two for one subdivision of the Class A Shares and Class B Non-Voting Shares in December, 2006, the number of Class B-Non-Voting Shares reserved for issuance pursuant to the RSU Plan was increased from 2,000,000 to 4,000,000.

Transferability of Awards

RSUs are not transferable or assignable other than to the personal representative of an estate or by will in the event of the death of a participant, subject to any applicable regulatory approval.

Summary of the Executive Deferred Share Unit Plan

Eligible Participants

Our and our affiliates senior executive officers and officers designated by the Compensation Committee (an “Eligible Executive”) are eligible to participate in the Executive Deferred Share Unit Plan (“DSU Plan”).

Determination of DSUs to be Granted

An Eligible Executive may elect to receive bonus remuneration, in whole or in part, in the form of deferred share units (“DSUs”) or cash. In order to participate in the DSU Plan, the Eligible Executive must file a written election designating the portion or percentage of the bonus for the applicable fiscal year that is to be deferred into DSUs and the portion or percentage to be paid in cash. Only one election may be filed in respect of any fiscal year and that election is irrevocable. DSUs elected by an Eligible Executive are credited to an account maintained for the Eligible Executive by us. The number of DSUs to be credited to the Eligible Executive is determined by dividing the amount of the bonus to be deferred into DSUs by the market price per Class B Non-Voting Share on the date credited. Dividends paid on the Class B Non-Voting Shares are credited as additional DSUs (by dividing the dollar amount of dividends payable by the market price per Class B Non-Voting Share on the date credited).

Redemption of DSUs upon Termination of Employment

Upon termination of employment for any reason other than death of the Eligible Executive, the Eligible Executive may require redemption of the DSUs. The Eligible Executive is then entitled to receive a lump sum cash payment equal to the number of DSUs credited to the account, multiplied by the market price per Class B Non-Voting Share on the applicable date. If the Eligible Executive does not request redemption, the DSUs will be redeemed by us at the end of the year following the year of termination of employment. In the event of death of the Eligible Executive, we are to make a lump sum cash payment within ninety (90) days of the date of death, on the terms set out above.

Amendment and Termination of Equity Compensation Plans

Except as provided below, the Compensation Committee may amend, suspend or terminate such plans at any time, provided, however, that any such amendment, suspension or termination shall not decrease the entitlements of a participant which have accrued prior to the date of the amendment, suspension or termination. In accordance with TSX requirements, and prior to the amendments to such plans described under the item “Amendments To Equity Compensation Plans” becoming effective, shareholder approval of amendments to such plans would generally be required in the case of fundamental changes such as an increase in the number of common shares issuable under a plan or any change to the eligible participants which would have the potential of broadening or increasing insider participation; provided that shareholder approval would generally not be required in the case of (i) amendments of a “housekeeping” nature, (ii) a change to the vesting provisions of awards or a plan, (iii) a change to the termination provisions of awards or a plan which does not entail an extension beyond the original expiry date, and (iv) the addition

of a cashless exercise feature, payable in cash or common shares, which provides for a full deduction of the number of underlying common shares from a plan reserve.

Amendments to Equity Compensation Plans During 2006

During 2006, and pursuant to the then existing amending provision of the Corporation’s Stock Option Plans and RSU Plan, the Corporation made certain housekeeping and administrative amendments to such plans. The TSX accepted notice of each of these amendments to such plans. These amendments did not require the approval of shareholders.

The amendments consisted of: (i) changes to the employment termination provisions of the plans and the options granted thereunder which do not entail an extension beyond the original expiry dates and which were made to provide for the uniform treatment of all options, notwithstanding the reasons for the departure of the participant; (ii) authorizing the CEO of the Corporation to identify the persons entitled to receive awards under such plans based on the criteria, guidelines and other requirements established by the Board of Directors and the Compensation Committee from time to time; (iii) clarifying the definition of retirement age in the plans; (iv) permitting designated eligible participants to receive RSUs under the RSU Plan in lieu of all or part of their bonus and to convert their RSUs into DSUs on or prior to the vesting of the RSUs; and (v) drafting and other changes to clarify the provisions of the plans.

Employee Share Accumulation Plan

In 2004, we established the employee share accumulation plan (the **Employee Plan**), which replaced the Employee Share Purchase Plan. The Employee Plan is open to all of our employees, excluding participants in our Stock Option Plans and our RSU Plan, described above. Under the Employee Plan, an employee may elect to participate by making contributions from payroll up to a maximum of 5% of salary. The Board may, in its discretion, authorize designated employees who may contribute up to 10% of their salary to the Employee Plan.

The Employee Plan is managed by an independent trustee, which holds the contributions on behalf of the employee. At the end of each calendar quarter, we contribute to each participating employee’s account, an amount equal to 25% of the aggregate contributions made during that quarter by the participating employee. The trustee then purchases Class B Non-Voting Shares with such contributions, through the facilities of the Toronto Stock Exchange, for the account of the participating employee.

During the year ended December 31, 2006, an aggregate of 431,077 Class B Non-Voting Shares were purchased under the Employee Plan.

PART 4 CORPORATE GOVERNANCE
STATEMENT OF CORPORATE GOVERNANCE PRACTICES

The Board endorses the principle that our corporate governance practices (the **Corporate Governance Practices**) are a fundamental part of our proper functioning as a corporation. The Board believes that these Corporate Governance Practices enhance the interests of our securityholders, employees, customers and of others dealing with us. Our Corporate Governance Practices, summarized below, respond to the disclosure required by National Instrument 58-101 — Disclosure of Corporate Governance Practices (**NI 58-101**) and the guidelines set forth in National Policy 58-201 — Corporate Governance Guidelines. This Statement of Corporate Governance Practices was prepared by the Corporate Governance Committee and approved by the Board.

Mandate of the Board

The Board has adopted a Board of Directors Charter (the Board Charter) as its written mandate of directors’ duties and responsibilities (the Board Charter is attached to this Information Circular as Appendix A).

Position Descriptions

The Board Charter mandates the Chair’s main responsibility as overseeing and managing and assisting the Board in fulfilling its duties and responsibilities in an effective manner independently of management. For that purpose, the duties of the Chair of the Board include:

- chairing Board and shareholders’ meetings;
- organizing an appropriate annual work plan and scheduled Board meetings;
- participating in the preparation of each Board meeting agenda and ensuring an appropriate information package is provided on a timely basis to each director in advance of the meeting;
- monitoring Board committees’ work and attending committee meetings as a non-voting participant (if not a committee member);
- assisting in the Board’s evaluation and self-assessment of its effectiveness and implementing improvements;
- providing guidance to individual directors in discharging their duties;
- ensuring new directors receive an orientation and education program; and
- arranging for directors to communicate with the Chair formally and informally concerning matters of interest to directors.

The chairs of each board committee are responsible to organize the affairs of such committee, chair its meetings, provide guidance to the members of such committee, retain outside experts as may be required and report to the Board on the work of such committee. The mandate of the committee may also assign specific additional responsibilities to the chair of the committee.

The Board has approved a detailed written job description for the office of Chief Executive Officer. The Compensation Committee will review and approve the Chief Executive Officer’s written objectives for the current year.

Orientation and Continuing Education

It is the responsibility of the Chair of the Board to oversee an orientation and continuing education program for the directors. Newly appointed directors attend orientation sessions which are intended to familiarize new directors with our business and operations, including management structure, strategic plans, finances, opportunities and risks. New directors have the opportunity to meet with management and other members of the Board. New directors are also provided with a package of detailed information concerning our affairs, including public filings. From time to time, presentations are made by management personnel or outside experts to educate the directors on new issues.

Ethical Business Conduct

The Board has adopted both a Directors Code of Conduct and Ethics and the Business Conduct Guidelines for Officers and Employees (the Codes). The Codes require our directors, officers and employees to disclose any material transaction or relationship that could reasonably be expected to give rise to a conflict of interest, among other requirements.

Issues arising in connection with the Codes, including conflicts of interest are reported to the Audit Committee in the case of the Business Conduct Guidelines and to the Corporate Governance Committee in the case of the Directors Code of Conduct and Ethics, which are responsible for monitoring compliance with the applicable Code and applying and interpreting the applicable Code in particular situations. The Committees must inform the Board of any Code

violation. Any waiver of a Code provision may be made only by the Board or by the applicable committee and reported to the Board.

We have publicly filed the Codes on SEDAR and posted them on “Corporate Governance” at www.rogers.com.

APPENDIX “A”

BOARD OF DIRECTORS CHARTER

The purpose of this charter (“Charter”) of the board of directors (the “Board”) of Rogers Communications Inc. (the “Company”) is to provide guidance to Board members as to their duties and responsibilities. The power and authority of the Board is subject to the provisions of applicable law.

PURPOSE OF THE BOARD

The Board is responsible for the stewardship of the Company. This requires the Board to oversee the conduct of the business and affairs of the Company. The Board discharges some of its responsibilities directly and discharges others through committees of the Board. The Board is not responsible for the day-to-day management and operation of the Company’s business, as this responsibility has been delegated to management. The Board is, however, responsible for supervising management in carrying out this responsibility.

MEMBERSHIP

The Board consists of directors elected by the shareholders as provided for in the Company’s constituting documents and in accordance with applicable law. From time to time, the Corporate Governance Committee shall review the size of the Board to ensure that its size facilitates effective decision-making by the Board in the fulfilment of its responsibilities.

Each member of the Board must act honestly and in good faith with a view to the best interests of the Company, and must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. A director is responsible for the matters under “Role and Responsibilities of the Board” below as well as for other duties as they arise in the director’s role.

All members of the Board shall have suitable experience and skills given the nature of the Company and its businesses and have a proven record of sound judgment. Directors are to possess characteristics and traits that reflect:

- high ethical standards and integrity in their personal and professional dealings;
- the ability to provide thoughtful and experienced counsel on a broad range of issues and to develop a depth of knowledge of the businesses of the Company in order to understand and assess the assumptions on which the Company’s strategic and business plans are based and to form an independent judgment with respect to the appropriateness and probability of achieving such plans;
- the ability to monitor and evaluate the financial performance of the Company;
- an appreciation of the value of Board and team performance over individual performance and a respect for others; and
- an openness for the opinions of others and the willingness to listen, as well as the ability to communicate effectively and to raise tough questions in a manner that encourages open and frank discussion.

Directors are expected to commit the time and resources necessary to properly carry out their duties. Among other matters, directors are expected to adequately prepare for and attend all regularly scheduled Board meetings. New directors are expected to understand fully the role of the Board, the role of the committees of the Board and the contribution individual directors are expected to make.

ETHICS

Members of the Board shall carry out their responsibilities objectively, honestly and in good faith with a view to the best interests of the Company. Directors of the Company are expected to conduct themselves according to high standards of personal and professional integrity. Directors are also expected to set the standard for Company-wide ethical conduct and ensure ethical behaviour and compliance with laws and regulations. If an actual or potential conflict of interest arises, a director shall promptly inform the Chair and shall refrain from voting or participating in discussion of the matter in respect of which he has an actual or potential conflict of interest. If it is determined that a significant conflict of interest exists and cannot be resolved, the director should resign.

Directors are expected to act in accordance with applicable law, the Company's Articles and the Company's Directors Code of Conduct and Ethics. The Board is required to monitor compliance with the Directors Code of Conduct and Ethics and is responsible for the granting of any waivers from compliance with the Code for directors.

MEETINGS

The Board shall meet in accordance with a schedule established each year by the Board, and at such other times as the Board may determine. Meeting agendas shall be developed in consultation with the Chair. Board members may propose agenda items through communication with the Chair. The Chair is responsible for ensuring that a suitably comprehensive information package is sent to each director in advance of each meeting. At the discretion of the Board, members of management and others may attend Board meetings, except for separate meetings of the independent directors of the Board.

Directors are expected to be fully prepared for each Board meeting, which requires them, at a minimum, to have read the material provided to them prior to the meeting. At Board meetings, each director is expected to take an active role in discussion and decision-making. To facilitate this, the Chair is responsible for fostering an atmosphere conducive to open discussion and debate.

Independent directors shall have the opportunity to meet at appropriate times without management present at regularly scheduled meetings. The lead director shall be responsible for presiding over meetings of the independent directors. Independent directors may propose agenda items for meetings of independent directors through communication with the lead director.

ROLE AND RESPONSIBILITIES OF THE BOARD
