

How to forward emails from your @shaw.ca webmail account to your new @rogers.com account

See below for details on how to setup automatic email forwarding on your Shaw Webmail 2.0 account to your new @rogers.com email account.

1. Log in to your Shaw Webmail account at <https://webmail.shaw.ca/>
2. Click on **Preferences**
3. Open the **Mail** drawer
4. Click on **Receive**
5. In the "When a Message Arrives: Forward a Copy To" field, enter the email address that you would like to forward your email to
6. Click **Save** at the top of the page

Webmail 2.0: Email Forwarding

The screenshot displays the 'Receive' preferences page in Shaw Webmail 2.0. The left sidebar shows the 'Mail' drawer expanded, with 'Receive' selected and highlighted by a red box. The main content area is titled 'Receiving Messages' and contains the following options:

- Alert when a message arrives:**
 - Play a sound (requires QuickTime or Windows Media plugin)
 - Highlight the Mail tab
 - Flash the browser title
- When a message arrives: Forward a copy to:** (This field is highlighted with a red box)
- Don't keep a local copy of messages
- Send auto-reply message:
- Start On: 3/31/2014
- End On: 4/4/2014
