Enterprise Voice
& Collaboration

Get the suite of services right for your business

Dramatically impact enterprise efficiencies and success with packaged or customized offers for Office 365 delivered by Rogers

A POWERFUL BUSINESS PRODUCTIVITY ENHANCER, Office 365 delivered by Rogers is a cloud-based solution hosted by Microsoft that allows your employees to connect, collaborate and share anytime, anywhere on any device. A monthly subscription service, Office 365 can be used on up to five devices and brings enterprise-grade services to organizations of all sizes, from online meetings to sharing documents to business-class email.

SET UP A DISCOVERY SESSION TODAY

Available in five suites, each package is designed to give you the flexibility to assign only the services required by specific user groups, allowing you to customize your overall Office 365 plan to suit your specific business requirements.

During the Discovery Session, a solutions consultant will meet with you to understand:

- Your employee needs and required tools for specific user groups
- Your current infrastructure including servers, software and locations

Ultimately, you gain insight into relevant user group offerings, supplemental services and possible improvements to your infrastructure.

Delivering the Connected Enterprise

Workforce Enablement

Asset Management

Customer Engagement

Network Infrastructure
