The easy way to enable mobility

Our suite of Managed Mobility Services provides scalability, simplicity and the flexibility to handle the complex demands of enterprise clients

THE FAST PACE OF TECHNOLOGY INNOVATION HAS MADE IT INCREASINGLY DIFFICULT FOR BUSINESSES TO MANAGE THE COMPLEXITY OF DELIVERING AND MANAGING MOBILITY. Most Canadian businesses simply don't have the time or resources to handle the full mobility lifecycle, which includes ordering, inventory management, provisioning and deployment, ongoing migration and upgrades, end user support, plan optimization, corporate reporting and expense management. Rogers has been delivering innovative mobility solutions to Canadian businesses for over 20 years, and we are uniquely qualified to help your organization leverage mobility to drive productivity and efficiency.

The Rogers Managed Mobility Services team operates as an extension of your business to build you more powerful capabilities and to deliver more benefit from mobile applications & solutions.
