Navigate with ease: Getting around your BlackBerry PlayBook tablet

No matter where you are on your tablet, it's easy to get to where you want to be next – and back again. Just point, swipe, pinch or drag. Here's how to navigate between views, menus, apps and more.

Swipe

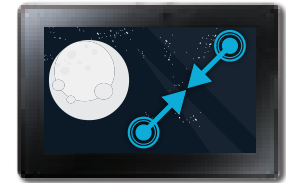

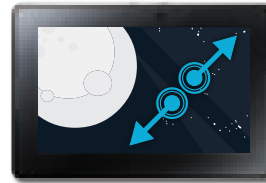

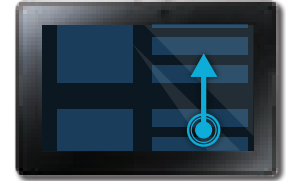

To scroll a list, pan a webpage, move between pictures and more, touch the screen and slide your finger up and down or right and left.

Pinch

To zoom in and out of a webpage, picture or other content, touch the screen with your finger and thumb and pinch them together or apart.

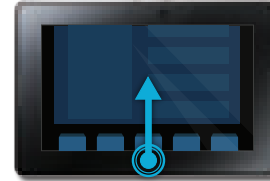

Drag

To move an application icon on the Home screen from one place to another, touch and hold the icon. Slide your finger to the position where you want it.

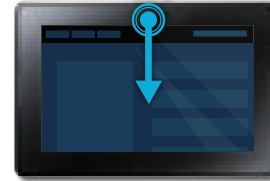

Show the Home screen and minimize apps

You can return to the Home screen at any time by minimizing the app you're currently using. Swipe up from the bottom frame onto the screen.

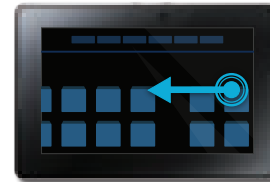

Show the menu

In many apps, you can find additional features, options and help in the menu. In an app, swipe down from the top frame onto the screen.

Switch between views on the Home screen

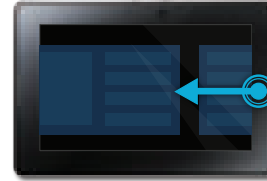

Swipe left or right in the lower part of the Home screen.

Switch between apps

You can flip between your open apps without having to return to the Home screen.

In an app, swipe in from the left or right frame onto the screen.

Show the status bar

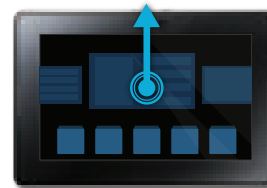

You can peek at the status bar without leaving the app you're using. This is a great way to quickly check your notifications, see the time, change system options and more.

In an app, swipe in from the top-left or top-right frame onto the screen.

Close an app

Show the Home screen to minimize the app. Touch the minimized app and swipe up.

The perfect pair: Connecting your tablet and your BlackBerry smartphone

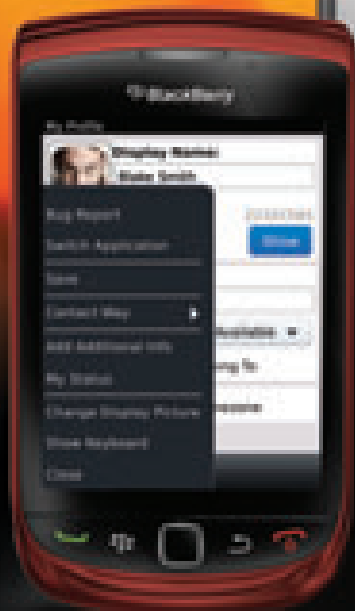

Supersize your BlackBerry smartphone. Wirelessly connect it to your BlackBerry PlayBook tablet for full email inbox functionality, address book, calendar, memo pad, task list, and even BBM on the large, high resolution touch display. The connection is secure, data never leaves the smartphone and is never duplicated. Connecting is easy too – one-time setup is fast, and when it's complete, the connection is automatically restored every time the two devices come into range.

Your tablet connects to your BlackBerry smartphone using Bluetooth® technology. So you'll need the BlackBerry® Bridge™ app installed on your smartphone. You can find it free at BlackBerry App World storefront.^{1,2}

Please note: Your smartphone must be running BlackBerry® Device Software version 5.0 or later to pair properly. To update your BlackBerry smartphone software, visit blackberry.com/updates

Pairing your tablet with your BlackBerry smartphone

1. On your tablet Home screen, on the status bar, tap  > **BlackBerry Bridge**.
2. Tap **Setup** > **Continue**.
3. In the BlackBerry Bridge app on your smartphone, tap **Add Device** > **Next**.
4. Point your smartphone camera at the barcode that appears on your tablet to scan the barcode. The image will capture automatically and connect the two devices.

When your tablet and smartphone are connected, these icons appear on your tablet Home screen:

BlackBerry® Messenger — Communicate virtually instantly with other BlackBerry users. It's everything you love about BBM, on your tablet.

Messages — Take advantage of the reading pane and larger screen on your tablet to work through your message inbox more quickly. Attach files from your tablet or your smartphone.

Calendar — Keep on top of your schedule at a glance with Day and Month views or a convenient split-screen view.

Contacts — Connect with the people in your network through the Contacts app.

Tasks — Have a growing to-do list? Use the Tasks app to help you stay focused on important actions.

Memos — Instead of jotting notes on scraps of paper that can be easily misplaced, use memos to keep your information organized and easy to find.
