

Is Rogers Unison right for you?

Rogers Unison™ is Canada's first communication solution designed to meet the needs of modern and mobile small businesses – on-the-go companies doing business where and when it happens. Is it the right choice for your small business? Answer these 10 questions to find out.

1	Do you/your employees spend part or all of every day out of the office?	YES	NO
2	Are you paying for both fixed and mobile business lines?	YES	NO
3	Are you missing incoming calls from potential customers – and are they calling your competition when they can't reach you right away?	YES	NO
4	Are you forced to rely on apps on your mobile devices for managing your business communications?	YES	NO
5	Are you using VoIP for mobile calls – and paying for mobile data usage with every call?	YES	NO
6	Do you waste valuable time listening to voice mail on multiple devices or searching for a specific message?	YES	NO
7	Would a second business number, with a different area code, help expand your reach into additional geographic areas?	YES	NO
8	Would your business benefit if customers were able to find it more easily on Google and other search tools?	YES	NO
9	Do you want your company to have the best possible brand and professional image?	YES	NO
10	Are you looking for a mobile solution that's easy for you and your employees to use right from the get-go?	YES	NO

IS ROGERS UNISON RIGHT FOR YOU?

If you answered “Yes” to two or more of the questions above, then Rogers Unison may be a great fit for your business. Rogers Unison delivers the best features of a traditional desk phone system in a native mobile solution. No apps to download and launch every time. No mobile data-usage charges for phone calls made through Rogers Unison. No need to pay for two or more lines. And with the ability to route incoming calls to whomever is available, no more missed calls.
